FEATURED USE CASES

Mobile Solutions for Healthcare

RAM® Mounts provides secure, customizable mounting solutions for tablets, monitors, medical devices, and more. These solutions support a wide range of clinical applications—from mobile workstations and telehealth carts to patient monitoring and diagnostic setups.

Asset Management & Data Safety

Consolidate your device management with dedicated bay charging and optional RJ45 for mixed iPads and iPhones with IntelliSkin®.

Patient Check-In

Stationary iPad kiosk stations with quick removability for patient check-in with IntelliSkin® and Uni-Conn™.

Bedside Care

Dedicated wall docks for iPads in IntelliSkin® Thin-Case™ to keep track of active bedside care.

Patient Management

IntelliSkin® with Uni-Conn™ for iPads replaces existing desktop computers on standing medical carts.

Telehealth

IntelliSkin®-wrapped iPad placed on a desktop dock props the device up and removes the need to fumble with cords for patients with dexterity challenges.

Emergency Transportation

IntelliSkin® for iPhone makes device handling easier on the road during emergencies.

Delivery

IntelliSkin® provides drop protection outside the vehicle while supporting convenient add-ons like hand straps.

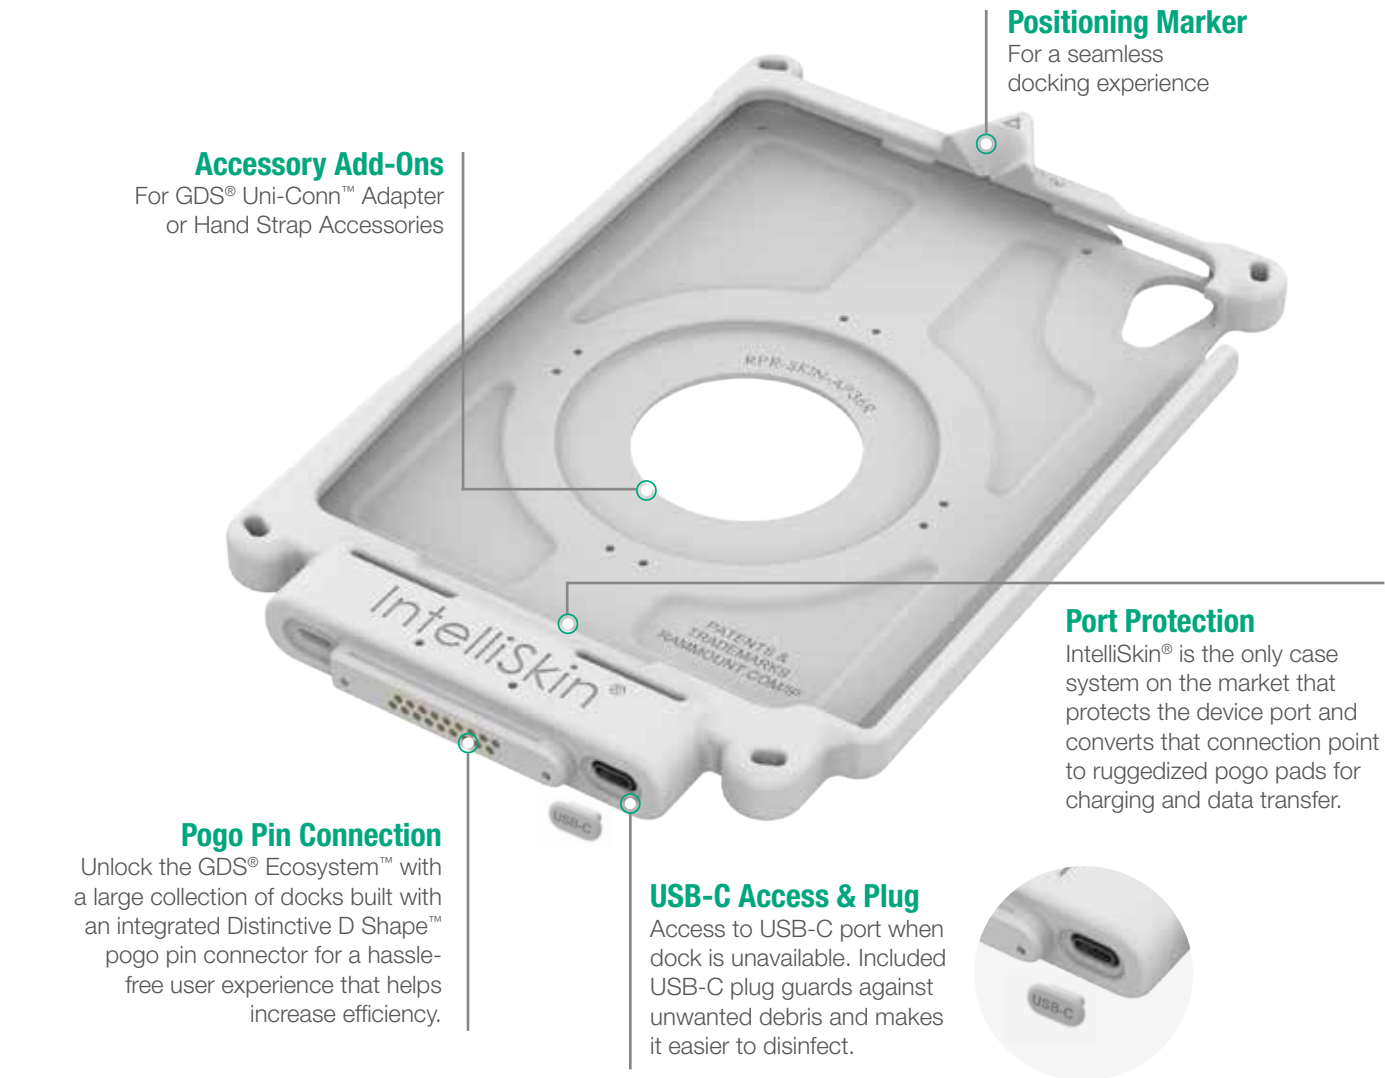

Receiving

Ergonomic accessories for IntelliSkin® protects devices from drops and keeps hands available.

HOW IT WORKS

IntelliSkin® & GDS® Tech™

IntelliSkin® transforms tablets and phones into durable, enterprise-ready devices. Its key innovation is industry-leading port protection, which safeguards the device's USB-C port by converting it into flat, wear-resistant pogo pads—enabling rugged use across a complete ecosystem of docks and accessories.

Types of IntelliSkin®

INTELLISKIN® NEXT GENERATION

- Ultra ruggedized rubber frame
- Primarily used in rough, dirty environments prone to frequent drops
- Certified cycle tested for 150,000 docking events

INTELLISKIN® THIN-CASE™

- Two-piece hard plastic frame
- Primarily used in clean, professional, and stationary environments
- Pogo pins on back of case unlocks low-profile ecosystem of powered docks

Standardize Your Operations with the GDS® Ecosystem

STREAMLINE CHARGING & DOCKING ACROSS WORKFLOWS

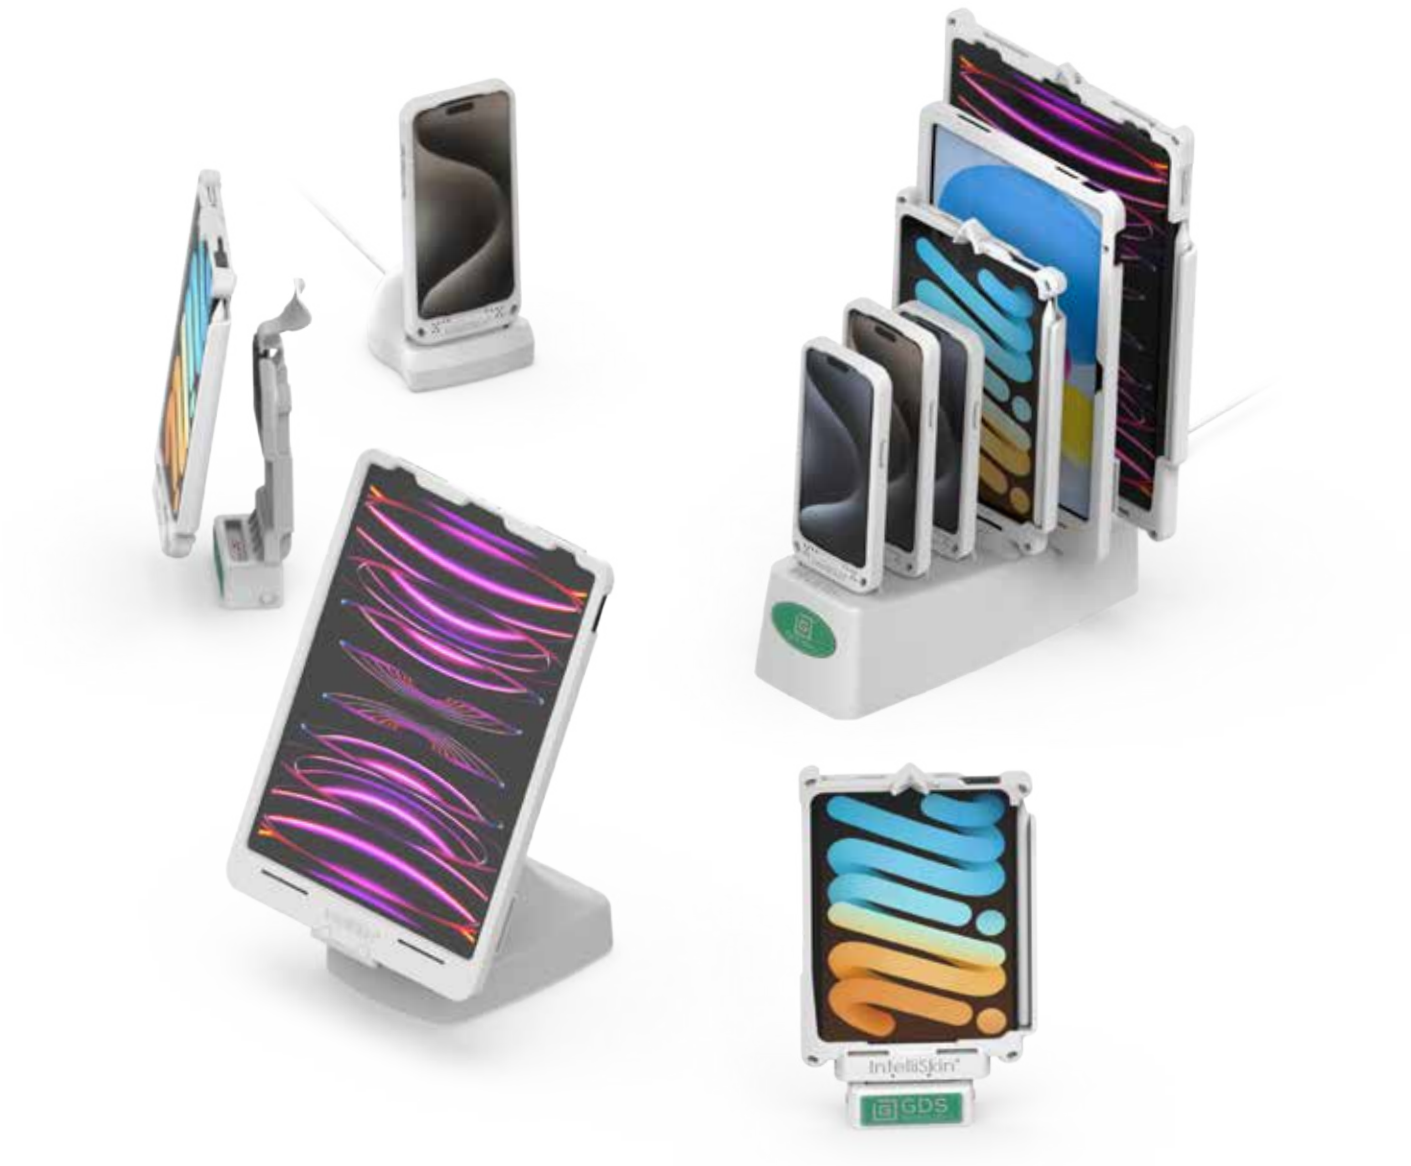

IntelliSkin®-wrapped devices enable seamless transitions between multiple docking environments, ensuring consistent connectivity and power across diverse healthcare workflows.

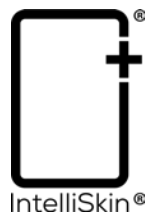

MOBILIZE CARE WITH ERGONOMIC ACCESSORIES

Accessory add-ons easily attach to IntelliSkin® cases, enhancing mobility and comfort for healthcare professionals on the move without compromising durability or device connectivity.

UPGRADE DEVICES SEAMLESSLY IN THE FUTURE

With the GDS® ecosystem in place, device upgrades can be made seamlessly without replacing existing docking infrastructure—preserving your investment and simplifying long-term technology transitions.

Mount Anything, Anywhere.
