IntelliSkin® & GDS® Vehicle Docks for Samsung Tab A11
FEATURES & BENEFITS

Easy Docking Positioning Markers

IntelliSkins® come equipped with built-in positioning markers that match the positioning markers on GDS® Tough-Docks™ to ensure proper alignmvent when docking the device. This driver-centric design allows for a fumble-free docking experience.

Reliable Connection, Rugged Protection

Each IntelliSkin® is uniquely built to protect the device using soft, shock absorbing rubber with an internal USB-C connector that protects the device and its ports while converting the connection point to flat pogo pad docking contacts that are easy to clean. Added access to a USB-C port allows connection to the device when not using a GDS® Dock™.

Seamless Device Upgrades

With the GDS® Uni-Conn™ Adapters, a new IntelliSkin® is all that is needed when upgrading devices in your fleet. Keep your existing mount and chargers—eliminating installation costs and the need for hardware replacements.

Easy to Clean

In dirty, rough environments, interrupted device connection is unavoidable. This is mainly due to lack of cleaning maintenance and excessive debris buildup. The pogo pad contacts on the bottom of the IntelliSkin® are intentionally flat to reduce the debris buildup, making it easy to clean.

IntelliSkin® & GDS® Vehicle Docks for Samsung Tab A11
SPECIFICATIONS

Buttons Fully Accessible

5.19" in

9.94" in

Polycarbonate Hard Plastic Shell
Prevents flex at the connection point
